NOTES

APPLIANCES

It is recommended that electrical appliances and electrical fittings be periodically tested in accordance with AS/NZS 3760 and that a Safety Certificate or equipment test tag be issued.

IMPORTANT

The opinions expressed at the time of the inspection or indeed on the report shall be deemed those held at the time of inspection. This report shall only apply to readily visible wiring and other apparatus. Accordingly this report shall not apply to parts of the installation which are located in walls, under floorboards or underground.

This report is intended to be used as an indicator of the general condition of the electrical installation although does not include any electrical testing. AS/NZ 3019 – Section 3 Verification by basic visual inspection, may be used in conjunction with this report.

REMEMBER

Always ask your electrician for a Master Electricians Certificate of Compliance when any fixed wiring is completed.
